Experience

Faculdade de Tecnologia e Inovação Senac DF   📅 July 2024 – December 2024 ($\sim$ **5 months**)
Tech Lead - Voluntary   📍 *Hybrid, Brasilia*

- Led a team of three IT students in designing and developing a self assessment web app.
- Developed and maintained all features.
- Responsible for documentation and DevOps.

Projects

Minecraft Tools — *Next.js, TypeScript, TailwindCSS, Vercel, Python*   **December 2024**

- Developed Minecraft useful tools for common user needs that are not in the game.
- Great experience learning how to optimize image loading and handling local storage.
- Used Python for extracting all +1300 items' icons and creating an item JSON list.

JVLF — *React, Vite, TypeScript, TailwindCSS*   **May 2024**

- JVLF stands for the name of all members of the student team.
- This website was developed by me to present a fictional Banco do Brasil's IT Master Plan for the 2025-26 biennium.
